Vision/Mission

AAOEC's mission has always been to empower single mothers to in a way that will make a difference in their lives and the lives of their children. We have always believed that in order to accomplish this single mother's need to have the resources to make good financial, health, and relationship decisions.

To that end we are increasing our focus to include not only single mothers but young ladies between the ages of six and fifteen. Our goal is to empower by offering services that include prevention, intervention and suppression.
